Yogakshemam

Bakrid! Raksha Bandhan! Krsnaasthami! Ganesh! Independence! Parsi New Year!

Let us spend time in mountains. Let us be friends. They make all the difference in our lives. Let us be friends with life, nature and universe. Let us hope Hiroshima-Nagasaki do not repeat. Let the indigenous have their way. Let us be thankful to them. Let us adopt their ways. Let the youth take charge of trusteeship of our children and the future. Let us appreciate differential abilities. Let us appreciate the special abilities. Let us capture life, nature, events and memories in photographs – pictures and clips. Let us care human life. Let us care life. Let us reduce sufferings. Let us be sensitive and respectful to all hues of life, culture and co-existence. Let there be equity and equality. For women and men. For young and old. For vulnerable and marginalized. Let us play games and sports. Let us be sportive. Let us patronage tiny, cottage, micro, small as far as possible.

Nutrition | Coconuts | Charity | Teachers | Literacy | No Suicides | First Aid | Engineers | Democracy | Ozone | Peace | Alzheimer | Languages | Tourism | Rivers | Heart

It is Unlock 3.0 unveiled. Curfew lifted. Corona is still going strong towards 20+ Million in the world, 2+ Million in India. Numbers may still explode. Vaccines in the horizon, may be 3-4 months. Some medicines. Plasma treatment. Self-care and caution is the mantra. Schools to remain closed till 31 August.

Union Cabinet approves New Education Policy 2020, to be unveiled to its maturity over next 20 years. We should be explore the foresight of this from multiple lenses in the next few days.

Here is our 154th 'livelihoods'. Our picks of the month include:

How to 'lead Gram Panchayat'?

Videos – "Transforming Food Systems"; "Protecting Forests to Preserve Livelihoods"

Fieldworker Dairy (Bharathi)

Classic Books – The Roots – Alex Hailey; Where there is no doctor – David Werner

Classic Articles – Development strategies and rural development: exploring synergies, eradicating poverty; Significant Milestones in Evolution of Agriculture in the World We are in the final stages of releasing Third Volume of Livelihoods on Ground.

With the faith and hope that you find this and evolving 'livelihoods' useful, we remain. We request you to join us our co-travel, and give more - notes, blogs, videos and pictures.

Books of the Month

Classic Book - When There Is No Doctor by David Werner

This book written by David Werner is in a league by itself. It brings together modern concepts of public health and personal health care into a usable and understandable format. This book does exactly what it promises to do: give the average, medically untrained person a good sense of how to look at a health care situation and respond to it intelligently. Using simple language and hundreds of drawings, the book provides information about recognizing, treating and preventing common illnesses and injuries.

Classic Book - Roots by Alex Haley

Alex Haley penned Roots, which earned him a Pulitzer Prize in 1977. Translated and published into 37 languages. "Roots" was first published in 1976. This book narrates the story of seven generations of Kunta Kinte. 17 year old boy, Kunta Kinte who is abducted by slave traders is compelled to take a traumatic sea passage to America and as he proceeds, the journey further is a heart wrenching tale.

Classic Book - The Songlines by Bruce Chatwin

The book was written in 1987 by Bruce Chatwin, a well-known British writer and journalist, who found his calling in semi-fictional travel writing. The book depicts the fictionalised version of Chatwin's journey through Australia for gaining knowledge about the Aborigines of Australia and their way of life; more specifically, Songlines, which are said to be the paths the creators of the world traversed as they 'sang' the places and people into creation in Australian Aborigines' mythology.

Revisiting the Informal Sector by Sarbajit chadhuri and Ujjaini Mukhopadhyay

The last 50 years have seen unprecedented population growth and urbanization, particularly in developing countries. However, economic development in these countries has failed to generate adequate employment and income opportunities in the modern sector. This imbalance has compelled the surplus labor force to generate its own means of employment and survival in the informal sector.

Articles of the Month

Climate Change Perspective From India- Sunita Narain & Co.

Climate change is no more an environmental concern. It has emerged as the biggest developmental challenge for the planet.

https://livelihoods.net.in/wp-content/uploads/2020/07/undp_climate_change-1.pdf

Merging capabilities and livelihoods: analyzing the use of biological resources to improve well-being-Juri Lienert & Paul Burger

Especially poor people in developing countries depend on biological resources to manage their livelihoods and to generate income.

<https://livelihoods.net.in/wp-content/uploads/2020/07/Merging-Capabilities-and-livelihoods.pdf>

Climate Change, Health and Existential Risks to Civilization: A Comprehensive Review (1989–2013)

Climate change is no more an environmental concern. It has emerged as the biggest developmental challenge for the planet.

<https://livelihoods.net.in/wp-content/uploads/2020/07/Climate-change-Health-comprehensive-Review.pdf>

Adapting agriculture to climate change-S. Mark Howden, Jean-François Soussana, Francesco N. Tubiello, Netra Chhetri, Michael Dunlop, and Holger Meinke

There is increasing urgency for a stronger focus on adapting agriculture to future climate change.

<https://livelihoods.net.in/wp-content/uploads/2020/07/Adopting-agriculture-to-climate-change-06July2020.pdf>

Benefits, costs, and livelihood implications of a regional payment for ecosystem service program-Hua Zhenga, Brian E. Robinson

Despite broad interest in using payment for ecosystem services to promote changes in the use of natural capital.

<https://livelihoods.net.in/wp-content/uploads/2020/07/Benefits-cost-and-livelihoods-ecosystem-...pdf>

Linking climate change and biological invasions: Ocean warming facilitates nonindigenous species invasions-John J. Stachowicz, Jeffrey R. Terwin

The spread of exotic species and climate change are among the most serious global environmental threats.

<https://livelihoods.net.in/wp-content/uploads/2020/07/Linking-climate-change-and-biological-invasions.pdf>

Climate change hastens population extinctions- John F. McLaughlin, Jessica J. Hellmann

Climate change is expected to alter the distribution and abundance of many species.

<https://livelihoods.net.in/wp-content/uploads/2020/07/Climate-change-hasten-population-extinctions-John-F.-McLaughlin-and-Jessica.pdf>

Expertise in rural development: A conceptual and empirical analysis-Philip Lowe

This article analysis of the evolution of rural development approaches and their underlying framings of knowledge generation over past decades.

<https://livelihoods.net.in/wp-content/uploads/2020/07/Expertise-in-rural-development-10July2020.pdf>

Zero Budget Natural Farming: Are This and Similar Practices The Answers- Srijit Mishra

It has been a matter of concern that the smallholders (includes marginal and small farmers) who have been efficient are also the ones bearing the greater burden because the low levels of absolute return questions their livelihood sustainability.

<https://livelihoods.net.in/wp-content/uploads/2020/07/ZBNF-article.pdf>

Permafrost carbon-climate feedbacks accelerate global warming

Permafrost soils contain enormous amounts of organic carbon, which could act as a positive feedback to global climate change due to enhanced respiration rates with warming.

<https://livelihoods.net.in/wp-content/uploads/2020/07/Permafrost-carbon-climate-feedbacks-Charles-D.-Koven.pdf>

Development strategies and rural development: exploring synergies, eradicating poverty-Cristóbal Kay

It has been on the importance of designing and implementing a development strategy that exploits the dynamic synergies between agriculture and industry.

<https://livelihoods.net.in/wp-content/uploads/2020/07/Development-strategies-and-rural-development-exploring-synergies-eradicating-poverty-15July2020.pdf>

Expert credibility in climate change-William R. L. Anderegg

Although preliminary estimates from published literature and expert surveys suggest striking agreement among climate scientists on the tenets of anthropogenic climate change (ACC).

<https://livelihoods.net.in/wp-content/uploads/2020/07/Expert-credibility-in-climate-change-William-R-L-Anderegg-17-July2020.pdf>

Strategy for Sustainable Development of Handloom Industry- Dr. Rachana Goswami & Dr. Ruby Jain

The handloom sector of India is an important part of the country's economy as well as socio-cultural traditions.

<https://livelihoods.net.in/wp-content/uploads/2020/07/Strategy-for-Sustainable-Development-of-Handloom-18-july2020.pdf>

Major Advances in Nutrition:Relevance to the Sustainability of the Dairy Industry-M.J Vandeharr N, St. Pierre

The dairy industry in the United States has undergone many changes in the past 100 yr.

<https://livelihoods.net.in/wp-content/uploads/2020/07/Major-Advances-in-Nutrition.pdf>

Perception of climate change-James Hansena, Makiko Satoa , and Reto Ruedy

Climate dice," describing the chance of unusually warm or cool seasons, have become more and more "loaded" in the past 30 yr, coincident with rapid global warming.

<https://livelihoods.net.in/wp-content/uploads/2020/07/Perception-of-climate-change-22-july2020.pdf>

Global climate change, war, and population decline in recent human history-David D. Zhang, Peter Brecke

Although scientists have warned of possible social perils resulting from climate change, the impacts of long-term climate change on social unrest and population.

<https://livelihoods.net.in/wp-content/uploads/2020/07/Global-climate-change-war-and-population-decline-in-recent-human-history-23July2020.pdf>

Benefits, costs, and livelihood implications of a regional payment for ecosystem service program-Hua Zhenga, Brian E. Robinson

Despite broad interest in using payment for ecosystem services to promote changes in the use of natural capital.

<https://livelihoods.net.in/wp-content/uploads/2020/07/Benefits-costs-and-livelihoods-implications-of-regional-payments-for-ecosystem-service-program.pdf>

Global warming-enhanced stratification and mass mortality events in the Mediterranean- Rafel Comaa, Marta Ribes

Summer conditions in the Mediterranean Sea are characterized by high temperatures and low food availability. This leads to "summer dormancy" in many benthic suspension feeders due to energetic constraints.

<https://livelihoods.net.in/wp-content/uploads/2020/07/Global-warming-enhanced-stratification-and-mortality-events-in-the-Mediterranean-27-July2020.pdf>

Significant Milestones in Evolution of Agriculture in the World-YL Nene

Chronology of historical events of India has been poorly documented.

<https://livelihoods.net.in/wp-content/uploads/2020/07/Significant-Milestones-in-evolution-of-Agriculture-World-28-July2020.pdf>

Livelihoods Weekly and Daily Update

We collect the livelihoods related (agriculture, rural development, livelihoods, economy, enterprise, partnerships, energy, entrepreneurships, health, education, service sector, skill development, climate change, monsoon and etc.) news every day and put a form and upload in Social Media.

‘Yoga’kshemam

Yogakshemam 13.07.2020

National Coalition for Natural Farming

We wished for National Coalition for Natural Farming on 28 June 2020. For learning, accelerating the practice and evolving policies around agro-ecology based multiple farming practices. Thanks a lot to Everyone, for the time, energy, support and inspiration. Now and in future. In less than two weeks, on 9 July 2020, it came into being, with an articulated purpose of building System-wide capacities for mainstreaming NF across India (and outside). Specifically, it wants to contribute – Ecosystem for NF in 5 years, 2 million Champion Farmers in 5 years and enabling 50 million small and marginal farmers and farm workers into NF in 10 years. Ambitious but needed. No alternative.

Forum for a distributed, plural and regenerative ecosystem. Public opinion and action. Champion farmers as resource persons. Institutions and partners in mobilizing and leveraging. Transformations transcending tipping point. Landless, marginal and small farm families and farm worker families. Women and men. Returned migrants. Nutrition security for the vulnerable.

The approach is to achieve exceed critical minimum and tipping point levels as quickly as possible, given the intensity of crises, and the availability of small window not more than 10-12 years. The discussion and decision of formal structures for the same will be taken in due course, if required.

Non-negotiables and Common Accepted Principles, Mandatory Minimum, Unto one's ability, Maximum Meaningful Programme based Vision derived from Ground drives the Coalition. Nationally. Locally. In the realm of NF Continuum. NF Principles. Farms to Landscape to Ecosystem and beyond. Human, Life, Soil, Planet Health. Moisture, Microbes, Matter. Planet boundaries. Future's Trusteeship. Nutrition, Livelihoods and Local Governance. Participation, Collectivization and Communitization. Saturation. Short local value-chains. Tracked Value-chains. End-to-end. Verified Source Areas. 1000 flowers with proof of concept application on scale. Customized local adaptations. Higher % of Consumer Rupee. Premiums? NF Brand(s). Partnership with Brands like AMUL.

Special focus remains on indigenous; tribal and subaltern communities; rainfed; forests; land and water; women; small and marginal; farm workers; IT professionals entering farming; returned migrants; farming entrepreneurs.

Special attention is also on discovering and evolving Science behind NF, with farmers as the scientists, with new learner risk-taking scientists with higher inductive logic, with land to land; land to lab to land; farms as live labs.

Special drive is towards NF ecosystem. Policies. Incentives. Triggers. DBTs. No subsidies for chemicals and other anti-NF activities. No fertilizer subsidy. No electricity subsidy.

[\[https://livelihoods.net.in/wp-content/uploads/2020/07/Yogakshemam-13.07.2020.pdf\]](https://livelihoods.net.in/wp-content/uploads/2020/07/Yogakshemam-13.07.2020.pdf)

Yogakshemam 30072020

Friends make all the difference

Friends, Friendships. They made all the difference in our lives. Let us be friends with Life, Nature, Universe. Let us invest in nature and people, peers and children. Let us take all our relations to transcend to friendships. Our parents. Siblings. Children. Teachers. Students. Colleagues. People I am with. So on.

Let us be in N's Gurukulam. Let us learn. Let us learn all day, all night. Let us learn when the trigger comes. Let us be ready for learning anytime. All through the day and all through the night. 0200 is a good time. 0430 is also a good time. 1400 hrs is a fine time. Let us exercise. Soul, Mind, Indriya, Body. Let us be fit. Let us have stamina for learning. Let us practice. 10000 hours. Giving, Helping. Loving. Caring. Being useful. Mentoring.

Let us listen to our Friends. They let us back to 'be'. They let us not go out of 'be'. They let us become better in being in 'be'. They let our eyes do not over the head. They bring the eyes back. They resist the eyes going up.

Let us be in N's Gurukulam. The day starts early. 0400/0500 hrs. Exercise, yoga, meditation, dhyana, prayer and silence. Pre-breakfast. Self-service. Rotation of various duties and responsibilities. N's teachers' are with us 24x7.

Every day, except Sunday. After a brief get-together, we are with the friends: teachers and peers. Several Classes with breaks for breakfast, water/tea/coffee, lunch. We study, friends available to help. Library works, Group works, explorations, conversations with friends go on. Some tutorial, mandatory tasks, optional practices are sprinkled in. Some play, some prayer, and dinner followed by self-study. Catching-up conversations and learning from peers. The sleep or the wakefulness with closed eyes. The wake-up call for the next day.

Sunday is a maintenance day. Seeing the world outside. Some adventure.

Friends are making us better as human beings, day-by-day. Showing us to show compassion, kindness, generosity. Giving us, by just being with them, intense experience. Making us more sensitive and responsible. Helping us to balance loving support now and ensuring future discipline and self-reliance. Making us conscious of immense source of power within us and outside, and coping and dealing with it. We can be their limbs, not ourselves, several days and vice-versa.

Friends and Friendships make all the difference in our lives. Let us be friends. Friends with Life. Universe.

The way ahead is being friends with Life, Nature and Universe. And Living. 7L. Living happy. Living simple. Being together. Living together. Flowing together. Touching lives take us there. Being friends take us there. People take us there. N takes us there. U takes us there. Breath takes us there. Water takes us there. Generous kind loving generalist servant integrator friendship takes us there.

Let us be N-friends with N-portfolio. Let us invest in People, Life, and N. Let us give and be friends to N and N gives friends to care us.
